

PUT THE **POWER**  
**OF THE PURSE**  
Behind Cancer Research and Prevention!

**Please Support Full and Continued Funding for Cancer Screening and Prevention Programs at the Centers for Disease Control and Prevention in the Federal Budget**

Breast and cervical cancer impact thousands of women each year. Our grandmothers, mothers, sisters, daughters. Our friends. People we love. We must support programs that provide access to life-saving preventive screenings and services. The National Breast and Cervical Cancer Early Detection Program currently can only serve **1 in 10 women** due to chronic underfunding by Congress.

Since Congress holds the purse strings for cancer screenings and prevention, why not fully fund these programs?

**As your constituent, I am asking you to fund \$514 million for the Division of Cancer Prevention and Control at the Centers for Disease Control and Prevention (CDC) including \$275 million a year for the National Breast and Cervical Cancer Early Detection Program.**

Please use the “power of the purse” to save women’s lives and make funding for cancer control programs at the CDC a top priority.
