

## COVID-19 Diagnostic and Antibody Testing

### Need Testing? Scan This QR Code

Scan this **QR code** with your phone's camera to learn more about antibody and COVID-19 testing.

- How much does testing cost?
  - How do I get tested for COVID-19?
  - Where are your drive-thru testing sites?
- 

### COVID-19 Nasal Swab

Feeling sick? Start a **Virtual Visit** to be evaluated and screened by one of our Piedmont Clinic providers.

Nasal pharyngeal swab testing is used to determine if you have coronavirus.

- Testing is performed on symptomatic and asymptomatic patients.
- 

### Antibody Test

Save time and **Save Your Spot** online to visit any of our 27 locations.

Antibody testing is used to determine if you may have been previously exposed to coronavirus.

- Testing is for those who haven't experienced COVID related symptoms in at least 10 days.
- Office visit is required to conduct the blood draw.
- No appointment necessary.
